

# Level Best is Best in Class

Precision grading to  
**0.1"**  
of spec

Doug Whitlock, Sales  
Ozark Laser, Springfield, MO

*"There are wannabes,  
but Level Best is tops in fine  
grading equipment."*

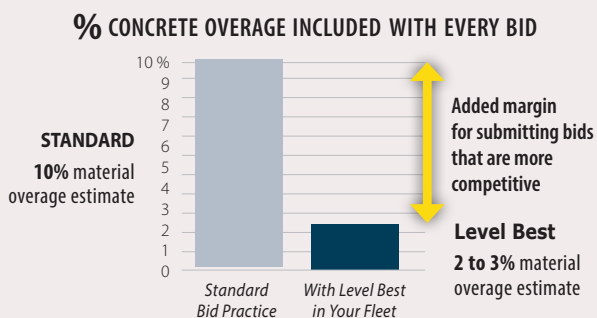

AS A SALESMAN AT OZARK LASER,  
DOUG WHITLOCK IS AN EXPERT IN  
LASER GUIDED GRADING EQUIPMENT.  
HE'S SOLD ON LEVEL BEST.

*"My job is to create happy customers. For fine grading equipment  
I always recommend Level Best because it's extremely well made,  
highly maneuverable, and they always have the latest technology.  
Basically, Level Best makes my customers very happy."*

## Lower material cost wins more bids

For about half the cost of a new pickup truck you can grade with unrivaled precision and get a competitive edge on nearly every job you bid. Here's how.

Always the latest technologies.

Works in both directions  
to help maximize production  
in precision grading.

**Level Best®**  
PRECISION GRADING

Level Best Is Precision Grading. It's All We Do.

# Saw it work. Had to have it.

Precision grading to  
**0.1"**  
of spec

Josh Huckle  
Owner, Huckle Construction, Bartlett, KS

*"One of the best tools  
I've ever had."*

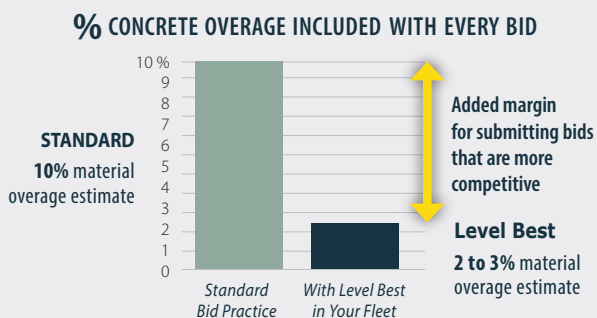

Josh Huckle loves moving dirt. When he saw a Level Best Precision™ Grading Box prepping for a large concrete pad pour, Josh was duly impressed . . .

*"It was so quick and maneuverable, and when I heard how precise it is, I just had to have one. It's simple to learn, easy to use, and it fits the equipment I already have. Now I can even put an inexperienced operator on it and know the job is being done right. My Level Best is one of the best tools I've ever had!"*
